

Jeblio Corporation

Data Science & Analytics Internship

Machine Learning & Analytics Program

Data Science & Analytics Internship Syllabus

Outcome

Build a machine learning model and interactive dashboard.

Days 1–5: Foundations

Day 1: Python Basics
Day 2: NumPy
Day 3: Pandas
Day 4: Data Cleaning
Day 5: EDA (Exploratory Data Analysis)

Days 6–10: Visualization

Day 6: Matplotlib
Day 7: Seaborn
Day 8: Advanced Visualization
Day 9: Dashboard Intro
Day 10: Tableau / Power BI

Days 11–15: ML Basics

Day 11: ML Introduction
Day 12: Regression
Day 13: Classification
Day 14: Model Evaluation
Day 15: Feature Engineering

Days 16–20: Advanced ML

Day 16: Clustering

Day 17: Time Series

Day 18: Model Optimization

Day 19: Deployment Basics

Day 20: Case Studies

Days 21–25: Project

Day 21–23: ML Project (Prediction System)

Day 24: Dashboard + Visualization

Day 25: Presentation

Certification

Receive an official certificate after successful completion.
